Dear Governor Palin,

Former AG Havelock sent me the attached letter. So, I had lunch with him today. He reiterated his points in person and I listened. I do not confirm or deny what we are or are not doing to him and he respects my silence on internal matters. In any event, I pass his thoughts on to you, I think you have been doing most of what he suggests - it is interesting how he perceives things.

Have a nice weekend in the snow.

Talis

Re: Some thoughts on gas pipeline maneuvering

Dear Talis,

I know that you and the governor have access to far more information than I do on this issue, so I am reluctant to offer my two cents worth; but this issue has been bothering me for a couple of days and I thought it might be useful for you to hear a perspective "from the street," as it were.

The recent announcement, a joint declaration by BP and Cominco, that they were going to build the gas pipeline added little to Cominco's previous press release on the topic except that BP was now on board. Most of us reading the small print could see that the commitment was only a commitment to do what BP and Cominco felt they wanted to do from time to time.

Thus many of us read the announcement as a power play, intended to detract from the Governor's plans to proceed with a special session. It was a statement that, "whatever the Governor says or does, we are in charge."

Reading this I asked myself, "What would Egan have done?" Most likely he would have publicly invited the presidents of the two companies to meet with him in Juneau, along with the president of the Trans-Canada Pipeline Company, and maybe Exxon as well.

The reason for this call is that all parties seem to concede that no pipeline is going to go without some level of cooperation among all these major players. The questions that the governor wants to have answered include - Why don't we have this cooperation now? How can the state mediate this process and speed it up? The state's interest and the national interest are that this pipeline be built as speedily as is safely possible. Lack of cooperation, for which there are many symptoms at this time, may well hold up the construction of the line.

There is a subtext here that could be more important, that is, "No, Cominco and BP are not in charge. The Governor of the State of Alaska is in charge."

The product of this meeting could be some form of joint planning and information exchange group sponsored by the state with the purpose of reducing friction, enhancing cooperation among the parties and the state, at least at the macro-policy level, all with the idea of getting the pipeline project under way a.s.a.p.

Maybe this idea has already been considered and rejected, no doubt for good reasons. Please do not feel there is any obligation to reply. Nor should you be concerned that this concept is going to show up in some form in a column in the News or public letter.

I hope you continue to enjoy the best job in the state in these exciting times.

Sincerely,

John B. Havelock

Subject: Fairbanks energy costs

Remembered another comment from today as I heard a lot of ideas from residents about how to provide relief for high energy costs (I am not particularly endorsing any of these...just passing along citizen comments.)

Here's what I heard:

1. Why can't the state do something with the Healy clean coal plant to provide cheaper power (Steve and Tom know those issues better than I)

2. Why can't the state suspend the oil tax for a time on in-state producer refined gasoline in exchange for producer agreeing to drop price of gasoline.

3. Raise local property tax exemption to 100000 instead of just 20K.

4. State should fund Susitna Hydro

While these were observations from others, one point was driven home for me,... Privileged or

Privileged or Personal Material Redacted

Is Pat G engaged in this discussion where tax revenues are being talked about? And, sure, feel free to pass to Tom, Steve...

Subject: Kensington Support Letter

Mr. Pete Griffin, District Ranger
Alaska Region – Tongass National Forest
Juneau Ranger District
8510 Mendenhall Loop Road
Juneau, AK 99801

Re: Comments on U.S. Forest Service SIR on Modified Plan of Operations for the Kensington Gold Project

Dear Mr. Griffin:

I am writing in support of the new SIR prepared for the paste tailings change at Kensington which meets all NEPA requirements. No new SEIS or EA should be necessary, given the analysis provided in the SIR and three previous EIS's, supported by over 1000 studies and $35 million in environmental baseline engineering and design studies.

The PTF will use the existing National Pollutant Discharge Elimination System (NPDES) outfall previously permitted after a NEPA analysis. The PTF will also use the existing water treatment facility which has been shown to be effective in meeting state and federal water quality standards.

The Sierra Club, Southeast Alaska Conservation Council and Lynn Canal Conservation supported taking the paste option forward as a better environmental alternative than the DTF. Paste tailings require less space and allow for enhanced water recovery, reducing water consumption. In addition, all contact water will be recycled or treated and will meet EPA's zero discharge requirement. The PTF berm will only be 85 ft. high, as compared to the dry stack at 220 ft. high. The closure/reclamation strategy is simple and straight-forward, and there are no long-term water treatment requirements for the encapsulated tailings.

I support the proposed move to Yankee Cove for transportation of workers, a fully permitted privately-owned facility, which eliminates the opposition of the Conservation Groups (SEACC, Sierra Club and Lynn Canal Conservation) to the Cascade Point facility. The move does not otherwise substantially change the transportation effects studied in the 2004 SEIS.

The Kensington project is very important to the economy and future of Southeast Alaska and I am confident that the SIR process provides the environmental analysis to allow Coeur to proceed with this plan and the opportunity for open comment on this SIR enables involvement by public as required by the Conservation Groups.

Sincerely,

Dawn Tompkins

Subject: G Gordon Liddy

What's the plan for clarifying the "state is paying him..." rumor that was the subject of the editorial and the letters to the editor recently? I don't know who's idea it was to (supposedly) pay Liddy to lobby for ANWR, but either Arctic Power needs to answer to the rumors, or there at least needs to be clearer messaging that we didn't ask for this, nor did we bless the idea of paying him or his expenses anyway as he plans to broadcast from AK. Thanks!

Web mail from: Ms. Angela DAvis

address: 1730 Muldoon Circle Apt 5 Anchorage AK 99504

MESSAGE:

Two things. First of all I have sending information to Gov. Palin regarding Psycho-therapy in Alaska. GCI says it will air the three part series put together by The Berean Call for 2 months to educate our public here. It begins this April 30, 2008 on Channel 12 at 9 p.m. That is the Anchorage listing. It is claimed by opponants that this is primarily a Christian issue and that is not at all true. But some of the strongest advocates against Psycho-therapy are the people who are to be aired in this series. They also refer to some of the best secular advocates also. So, it will be well documented if Christian viewpoint on the subject.

The other thing I'd like to make note of is to congratulate the Palin family on their new addition. And how it has affected at least one in our Muldoon community. I think the Palin's would like to know. A young man with Down's works locally. And I have never seen him as happy as yesterday. He now walks tall, smiles, and interacts with others on the bus he takes to work and back. And I'd bet there's a lot more walking tall and happy now too. God bless.

Subject: Kensington SIR

Mr. Pete Griffin, District Ranger
Alaska Region—Tongass National Forest
Juneau Ranger District
8510 Mendenhall Loop Rd.
Juneau, Alaska 99801

Subject: Kensington SIR

Dear Mr. Griffin:

I am a decade long resident of Juneau and a 35 year resident of Alaska. I have become very concerned about the length of time the agencies have taken to review information, resolve any outstanding issues and issue the permit for the Kensington Mine. I understand three environmental impact statements (EIS) have been completed each considering all environmental effects of locating a similar, but larger facility for storing tailings at the same location.

In March 2008, a Supplemental Information Report (SIR) was prepared by the USFS to meet the requirements of the National Environmental Policy Act (NEPA). Existing NEPA regulations allow for and encourage other involved agencies, like the EPA and US Army Corps of Engineers, to cooperate with and rely on existing EIS/Supplemental EIS documents, particularly those prepared by the lead agency which in this instance is USFS.

The USFS has initially determined the change for tailings storage from Lower Slate Lake to the paste tailings facility would not affect the environment in a significant manner or to a significant extent not already considered in the previous three EIS processes. The USFS has included provisions for public comment in the SIR process and will consider all comments in drafting a final SIR.

In closing, I believe the SIR prepared for the paste tailings change at Kensington meets all NEPA requirements. No new SEIS or EA should be necessary! Juneau needs the jobs Kensington will provide and we need them now!

Thank you for considering my comments.

Dear Governor Palin,

First of all congradulations are in order for your new Baby Boy. We are very happy for you and your family.

Iam writing you also to take a look at the coal to oil technology that is being strongly condidered in Montana and pushed by Governor Schweizer.

As long as oil does not drop below $35 a barrel this is a very provitable venture and becouse of our huge coal reserves something that we should look at now.

I found a link to this on Google so you might want to look at it. As our oil production is in a steady decline this looks very promising indeed.

By the way we think you are doing a fabulous job. Sincerly yours Klaus Plikat & Family

MESSAGE:

Gov:

99% of people are outraged about these snares that are used to get our wildlife... this is atrocious! This is disgusting! Please do something about it.

If we are going to allow this, we should force the people in government to wear these things around their necks.

Dear Governor Palin,

Former AG Havelock sent me the attached letter. So, I had lunch with him today. He reiterated his points in person and I listened. I do not confirm or deny what we are or are not doing to him and he respects my silence on internal matters. In any event, I pass his thoughts on to you, I think you have been doing most of what he suggests - it is interesting how he perceives things.

Have a nice weekend in the snow.

Talis

Governor,

I spoke with George Wuerch last night and he informed me that he will be resigning from the KABATA Board. He would like his effective date to be soon but left that up to us. I discussed the option of him sending his letter Monday and his resignation effective the end of the month (Wednesday). I am not sure that the timing matters all that much but the end of the month option makes sense. If that is OK with you, I will call him back to confirm.

George feels like his has put his time in on this one. He said he and Barbara are going to travel for a few months and would be unavailable. Confidentially, he shares some of our concerns about the RFP but he is not going to put out a statement and said he will try to avoid any media attention about his departure.

MESSAGE:

Dear Governor Palin:

First of all, congratulations on you new family addition. "A bundle of joy!"

I'm writing to invite you to my Aunt Mary's 80th birthday part here in Anchorage at the PenAir Hanger; May 2nd 6pm to 10pm. She's 80 years old, Alaska Native Aluutiq. There will be live music by my band "PREMIUM BLEND." "We'll even play a couple Van Halen songs for you!"

My Aunt has been everything to the community of Chigik. It makes so much sense that we are going to Honor one of our most important resources - our Elder. This is a family event - so please bring your whole family and enjoy the fun filled evening of stories and music.

It would be an Honor for you to attend and say a few words that can reach the hearts and souls of our families; as we are upon some challenging times. (for you - 10 minute slot) Sorry! lot's of family members going to tell stories of their experiences with Auntie Mary.

Thank you for your most precious time.

Information on band performing: www.myspace.com/premiumblendak

Subject: Budget item to NOT veto: Turnagain Elem. Computers!

Hello, Governor Palin!

Congratulations on your beautiful baby boy! What an fabulous example you are of God's love towards your special little boy!! Thank you and may God bless you as you raise your little ones.

I am a parent with children attending Turnagain Elementary School in Anchorage. Turnagain has graciously been included in the new budget for new computers for the student lab. Currently, the few working computers in the lab are appx. 10 years old and not very reliable. The students and families in the Turnagain area are hopeful that the computer funding for the school will NOT be vetoed. Education is a critical key to raising a successful future generation, as you know, and many of the Turnagain students are low-income/under-privileged (without home computer access and/or non-English speaking). These young students need to know how to use a computer before getting to middle school, where it becomes essential. We ask that you please not veto our school funding! We are excited about the prospect of teaching all the Turnagain kids to be computer-literate. Plus, there are some amazing software packages to help teach kids to read!

Thank you for your consideration!!

Sincerely,
Karen Biggs

MESSAGE:

Dear Governor Palin,

My sincere congratulations on the birth of your son. I appreciate your warm and loving comments about being truly blessed to have him in your life. I too feel extremely blessed that I am able to work with students with Developmental Disabilities in the last three years of their schooling. I feel strongly they have so much to give, and over the years they have taught me more than I have ever taught them. My students are exceptional workers who have incredibly positive attitudes about themselves and others. They are determined, committed workers who want to please their bosses and co-workers. They are willing to work for long hours at tasks that many people find beneath them, and do it with a smile and an attitude that often amazes me. This year I have seven students who are graduating and going out into the work world. 100% of these students will all have jobs that they go to every day and are thankful for it. They are happy with themselves and still love their parents and tea

chers and always will. They contribute to the world around them with their giving nature and try 100% at anything they do. What other teacher can say that about their graduating students? I am the luckiest teacher in the world. They make my job easy and fun each and everyday.

You are right-you are blessed, not just for having your son, but for being given the ability to see him for what he truly is, a gift from God. I wish that all people could be so blessed.

Thank you for sharing your feeling with the world. I know that God will continue to bless you and your family now and in the years ahead.

Sincerely,

Peggy Lynch

Subject: Comments on U.S. Forest Service SIR on Modified Plan of Operations for the Kensington Gold Project

Mr. Pete Griffin, District Ranger
Alaska Region – Tongass National Forest
Juneau Ranger District
8510 Mendenhall Loop Road
Juneau, AK 99801

Re: Comments on U.S. Forest Service SIR on Modified Plan of Operations for the Kensington Gold Project

Dear Mr. Griffin:

I am writing in support of the new SIR prepared for the paste tailings change at Kensington which meets all NEPA requirements. No new SEIS or EA should be necessary, given the analysis provided in the SIR and three previous EIS's, supported by over 1000 studies and $35 million in environmental baseline engineering and design studies.

The PTF will use the existing National Pollutant Discharge Elimination System (NPDES) outfall previously permitted after a NEPA analysis. The PTF will also use the existing water treatment facility which has been shown to be effective in meeting state and federal water quality standards.

The Sierra Club, Southeast Alaska Conservation Council and Lynn Canal Conservation supported taking the paste option forward as a better environmental alternative than the DTF. Paste tailings require less space and allow for enhanced water recovery, reducing water consumption. In addition, all contact water will be recycled or treated and will meet EPA's zero discharge requirement. The PTF berm will only be 85 ft. high, as compared to the dry stack at 220 ft. high. The closure/reclamation strategy is simple and straight-forward, and there are no long-term water treatment requirements for the encapsulated tailings.

I support the proposed move to Yankee Cove for transportation of workers, a fully permitted privately-owned facility, which eliminates the opposition of the Conservation Groups (SEACC, Sierra Club and Lynn Canal Conservation) to the Cascade Point facility. The move does not otherwise substantially change the transportation effects studied in the 2004 SEIS.

The Kensington project is very important to the economy and future of Southeast Alaska and I am confident that the SIR process provides the environmental analysis to allow Coeur to proceed with this plan and the opportunity for open comment on this SIR enables involvement by public as required by the Conservation Groups.

Thank you,
Don Reid

Dear Governor or should I say proud new Mom..

I recently read a story regarding the birth of your son and your joy in knowing you have been given one of Gods greatest gift.

My wife and I were blessed with a baby Girl last year with Down Syndrome. I remember when she was born my wife and I had many of the same feelings racing through us. It took me about 15 minutes in the nursery with her looking for frailities or any other things thatmay appear to be wrong. It was at that moment that I was given a strong prompting which I believe came from God himself. The voice I heard said "you do not realize what you have here", "this child will bless you and your family in ways that only she can", "Your other children will be blessed because of her".

In the past year We have realized these blessings as we have seen the joy a child with DS can bring into a family. She has taught us so much about love and innocence. She has taught us that no matter what you face in life you can be as happy as you choose to be.

I now know without a doubt that our family needed Rebekah more than she needed us. We are truly blessed because of her.

If only all of us were capable of having the unconditional love these choice children have there would be no wars or crime.

Again I want to congratulate you and your family on the birth of your baby and thank you for giving such a candid interview about such a private matter.

Jim Hargrave

Subject: NCTQ Research Competition: Call for Proposals (325)

The National Council on Teacher Quality is calling for proposals for our research competition, *Help or Hindrance? What is the impact of teacher rules, roles, and rights on teacher quality?* The competition is an opportunity to explore NCTQ's groundbreaking database, TR^3, which posts the content of collective bargaining agreements, school board policies, and state laws for 100 schools districts and all 50 states.

The deadline for proposals is **May 30, 2008** --just five weeks away! Apply yourself, or spread the word--but act quickly.

NCTQ is particularly interested in attracting new scholars from all fields to education policy research. A jury of top educational scholars will select 12 authors as semi-finalists that will receive $5,000 to conduct research and write a formal research paper. In December, eight finalists will be selected to present their papers at a national conference to be held in winter '09 in Washington, D.C.. At the conference, prizes of $15,000 and $5,000 will be awarded to the top two papers.

For details, please see the attached flyer or visit our website. For questions, contact Trish Madden at tmadden@nctq.org, 202-393-0020 x32.

MESSAGE:

Dear Governor Palin,

First, congratulations on Trig's arrival, he is one lucky guy.

OK, I live off of Fairview Loop.

It is a sad reality that most people in this area,have to get in a car and drive somewhere to enjoy the outdoors, or have a safe place for children to play.

For years, residents have worked hard to get a pedestrian path on Fairview Loop.

We are in the fastest growing area of the borough, yet there is no safe way for ANYONE to get from one street to the next, let alone walk or ride a bike to school.

We have no shoulders, no cross walk and not one street lamp in front of Snowshoe Elementary.

Yet, we in the fastest growth area in MSB.

We had been looking into grants when this $22 M appeared on the Go bond. Got excited, then

I heard that

some would like to make this a truck route to Pt. Mac., I dropped the idea of a safe walking, and have

been trying to find out the truth about plans for out area. Of course I've gotten nowhere.

We have a beautiful growing community here with a lot of history, we need to preserve and bring up the standards of

life here. We need to get Dad's off the couch and out riding bikes with their children, and have a safe place

for older folks to walk their dogs and listen to the birds.

Could you please take this into consideration during projects in our area??

Thank you so much for your time,

Sabrina Shaw

MESSAGE:

Congratulations on the birth of your little boy! I have three sons, two of whom are special needs. My children are 25, 17, and 12. My 17 year-old has autism and is severely mentally retarded and my 12 year-old has cerebral palsy and is also severely mentally retarded.

These boys bring special challenges but they also bring special joys. They are the loves of my life. I could not imagine my life without them, nor could I imagine them being any way other than the way God made them.

I can only hope your family is as blessed by your son with the same love and joy our boys have brought to our home.

On behalf of all families with special needs children, I thank you and your husband for publicly welcoming your little boy with open arms and open hearts. What a wonderful example you've set for other parents who may be faced with the same challenges with which you've been faced during this pregnancy. You're an inspiration to us all!

Again, congratulations!

LOOKING FOR JOHN GREEN

Printz Award-Winning Author in Second Life, on Internet Radio, and by Chat

April 28, 5-6 pm Eastern Daylight Time

Free Special Event!

John Green began his literary career as a book reviewer for Booklist Magazine. It was excellent training for a young author who has won the Printz Award for Excellence in Young Adult Literature (2006) for his first book, Looking for Alaska, and had his second book, An Abundance of Katherines, recognized as a Printz Honor Book (2007).

Hear about the writing of these award-winning books and the much-anticipated, Papertowns, John's third book available October 16, when we visit with John (aka Seymour Sideways) in Second Life.

We will meet with John on Monday, April 28, from 5 to 6 pm EDT.

If you are 18 or over you can join us in the Bookhenge, our 3-D virtual conference space in Second Life. Everyone younger, or not-yet a citizen of Second Life, can participate via our Internet radio channel (with an interactive chatroom) webcasting from Second Life.

For interactivity details, go to http://www.literacy2learn.org

Contact Dr. Cris Crissman (ccrissma@dpi.state.nc.us), 919-807-3582, for more information. Dr. Crissman (aka 2B Writer) offers an introduction to the world of Second Life in this

tour:

MESSAGE:

Dear Palin Family,

I regret that I had accidentally deleted Gramma Sally's email response to me, and I did so want to thank her for the nice email in return. I just wanted to say that we are so lucky to have such a great resource in the Valley for our special Angels. ILP, Infant Learning Program. I know Trig is so loved right now and he will gain so much from that love. this program is wonderful and has so many resources for each family with their Angels. I wanted to say that my son Bobby Reid, was riding a snow machine with Todd quite a few years ago and Bobby hit a snow berm and he went sailing into the air. I am sure Todd remembers that day as he told me that he never saw anyone fly so high into the air on a snow machine by accident! I was of course scared but Todd said Bobby was ok. Well as a parent I never forgot that reassuring statement. He had a huge lump on his head and a concussion but he was ok. It's those things that I am grateful for that someone took the time to reassure a worried mom.

I know from contact with these children in the education system that Trig will be ok. All of the families in the Valley will make sure that he will get what is needed as far as support and love. Sarah and Todd are so special and God has blessed them because he knew Trig is special too!

Thank you for the response and Thank you Sarah and Todd for caring about the people of the Valley!

Sincerely, Marietta Reid

Governor Palin, Todd, and family

Congratulations on the birth of your beautiful baby boy!

Vince and I know that he is truly a blessed little fellow, joining such a wonderful family. With three big sisters and brother to help you and Todd guide him along his way, he's sure to have a wonderful life.

We just became grandparents for the first time on April 1st to Bailee Angelina Olson (Vince had to have pictures brought to him from Anchorage to share with friends, including Blanche and Josie!), and parents again on April 21st, with the adoption of Earl Tilden, a great young man we've had in foster care since he was 6 years old. He comes to us with challenges, but we also feel fortunate to be able to add him to our family.

You're great roll models for busy parents and an absolutely awesome Governor!

Thank you for all you do for your family and all Alaskans

Patty Luckhurst and Family

MESSAGE:

Governor Palin,

(Invitation to the Colorado Springs Down Syndrome Association Annual Buddy Walk)

I want to send a heart-felt congratulations to you and your family on the birth of your son. I was a resident of Alaska from 1966-2006, until my retirement from the Air Force, but I still track significant events from my home state and my entire family still lives there. My brother told me that you recently gave birth to a child with Down syndrome, and I want to be among those who welcome you to a world of wonder and joy. My son, Ryan, has Down syndrome and like you, I was sad at first...but quickly assumed a position of determination with faith that God knows very well what He is doing. And I thank God daily for Ryan. He is my youngest of four children and will be seven in July.

I have been a member of the Colorado Springs Down Syndrome Association since near Ryan's birth and today serve as the association's Social Committee Director. Our association has a three mile Buddy Walk annually in August in Manitou Springs to bring education and awareness to Down syndrome. It's is pretty impressive and impacting and has enourmous community support. Should you have any reason to come to Colorado Springs, make it for August 23rd to join us...and roughly 3000 excited and supportive community members...in

our walk. If for some reason you are too busy to make it, we understand! In the meantime, welcome to the community. Nothing will compare to the smile of your son.

Again, congratulations!

Teresa, Mike, Elena, Aiden, Megan and Ryan Ward!

907-830-7021

MESSAGE:

Governor Palin,

I have long supported you and have absolutely been in love with how you conduct yourself and conduct business for our State. I have been behind your husband in his desire to go back to the Slope, stating it's no one's business but yours and his. I have applauded you, flying out to be at your son's graduation (my son serves in the U. S. Navy). I have laughed and cried, and more recently read and viewed the pictures of your newborn son, adoring how precious he is and knowing he's being born into a loving and strong family.

Having said all of that, Governor, this time you have missed the mark by a mile with your "unconditional support" of Joe Schmidt. All the good things you've done...have been undone in one fell swoop in my eyes. Everyone knows you went to high school together - so what are you saying? That all of these people are liars and have some ax to grind? I do not have family members who work in corrections - this is just plain old common sense. You seriously need to rethink your stance on this issue. Corrections is in a world of hurt. This man not only didn't ask for more money for corrections (that's fine), but he GAVE some BACK? And now you don't believe the people who have given him a no confidence vote? Come on!

I didn't even write to you when you cut the DPS budget by 1.2 million dollars, and I DO have a family member who serves this State as a State Trooper. That was bad enough...but this....this is just wrong and believe me, you need to seriously think about rectifying this situation, despite the fact that this jerk is your long time friend. Do the right thing. Practice what you preach, Governor.

Web mail from: Ms. Durainey Rawls

address: P.O. Box 8466 Nikiski AK 99635

907-776-8575

MESSAGE:

Dear Governor Palin,

I am sending you a hard copy of this letter also, but I wanted you to have a copy as soon as possible, so I will recreate it in this email. Thank you.

I am a woman small business owner from Nikiski, and I am seeking your assistance with a project which I believe is important to Alaska's future. Three years ago, I acquired a small construction firm after working for 2 generations of its prior owners over a period of 20 years. I started out as an Administrative Assistant, and worked my way up to Business Manager, before buying the company. During the years I was employed there, I also attended Kenai Peninsula College and received an Associate's Degree in Business Management, and a Bachelor of Science degree in Business Administration.

Although I know this business from the ground up, and have 2 business degrees, my company is struggling due to new competition from a much larger North Slope company which has moved into the area and been undercutting prices. I am being pushed out of my business and feel it is necessary to look to something new.

It occurs to me that there will soon be a much greater need for skilled construction workers in Alaska, and I believe I am well positioned to help prepare them. I would like to convert my company into a training facility for heavy equipment operators. My current operation includes 4 acres of cleared property, a 4,000 square foot metal shop building and a 1,200 square foot office building. I already have 5 cranes, 3 equipment hammers and a forklift in my equipment line, and have contemplated adding earth moving equipment and possibly paving equipment. Eventually I can also envision a welding shop. The skills we

could teach here would be invaluable on the new gas pipeline and on other pending Alaskan projects.

I would be very grateful if there is any way you can assist me to get this project off the ground. I am hoping that you might be able to suggest sources of funding, or direct me toward a State office or other entity which might help to coordinate the effort. I'm sure you will agree that preparing Alaskans for the jobs which will be needed to move our State's economy forward, is a worthy endeavor. I am prepared to do all that I can to help in that regard, but I believe I will need the State's assistance to fulfill the task.

Respectfully Submitted,

Durainey Rawls, President

Durainey's Crane Service, Inc.

Sent: Fri Apr 25 08:39:19 2008

Subject: Kodiak Superintendent Named Education Commissioner

Kodiak Superintendent Named Education Commissioner

April 24, 2008, Anchorage, Alaska - Governor Sarah Palin today approved the State Board of Education and Early Development's appointment of Larry LeDoux to serve as Commissioner. Former Deputy Commissioner Barbara Thompson has served as Interim Commissioner since August 18, 2007.

"The Board of Education did an excellent job in their deliberations and consideration of many fine candidates, and I sincerely appreciate their efforts and this outcome," Governor Palin said. "I appreciate Larry's dedication to our education system and know with his expertise and leadership we will build and improve Alaska schools, ensuring our students are receiving the best education possible. Barbara Thompson has done an amazing job as our acting commissioner, and my hat is off to her for caring so much about Alaska's schools and all our students."

LeDoux is superintendent of the Kodiak Island Borough School District, where he has held numerous administrative posts. He has served as principal of North Star Elementary School and of Kodiak High School, and taught at the latter school. LeDoux holds a master of arts in teaching in science and biology from the University of Alaska Fairbanks.

"Strengthening families and communities begins with the quality of education we provide," Larry LeDoux said. "The investment poured into each child will be redeemed in the quality of our future Alaskans."

The Commissioner serves as chief executive officer of the Department of Education & Early Development, ex-officio secretary to the State Board of Education and Early Development, and a member of the Governor's Cabinet.

By statute, Education Commissioners must have at least a master's degree with at least five years of experience in education since receiving the degree, with at least three of the five years in an exclusively administrative position. Commissioners are approved by the Governor. They are appointed without regard to political affiliation. They serve at the pleasure of the State Board for no fixed term.

The Department of Education & Early Development oversees K-12 public schools and operates Mt. Edgecumbe High School in Sitka. The department also includes the Division of Libraries, Museums and Archives; the Professional Teaching Practices Commission; and the Alaska State Council on the Arts.

Subject: Comments on U.S. Forest Service SIR on Modified Plan of Operations for the Kensington Gold Project

Mr. Pete Griffin, District Ranger
Alaska Region – Tongass National Forest
Juneau Ranger District
8510 Mendenhall Loop Road
Juneau, AK 99801

Re: Comments on U.S. Forest Service SIR on Modified Plan of Operations for the Kensington Gold Project

Dear Mr. Griffin:

I am writing in support of the new SIR prepared for the paste tailings change at Kensington which meets all NEPA requirements. No new SEIS or EA should be necessary, given the analysis provided in the SIR and three previous EIS's, supported by over 1000 studies and $35 million in environmental baseline engineering and design studies.

The PTF will use the existing National Pollutant Discharge Elimination System (NPDES) outfall previously permitted after a NEPA analysis. The PTF will also use the existing water treatment facility which has been shown to be effective in meeting state and federal water quality standards.

The Sierra Club, Southeast Alaska Conservation Council and Lynn Canal Conservation supported taking the paste option forward as a better environmental alternative than the DTF. Paste tailings require less space and allow for enhanced water recovery, reducing water consumption. In addition, all contact water will be recycled or treated and will meet EPA's zero discharge requirement. The PTF berm will only be 85 ft. high, as compared to the dry stack at 220 ft. high. The closure/reclamation strategy is simple and straight-forward, and there are no long-term water treatment requirements for the encapsulated tailings.

I support the proposed move to Yankee Cove for transportation of workers, a fully permitted privately-owned facility, which eliminates the opposition of the Conservation Groups (SEACC, Sierra Club and Lynn Canal Conservation) to the Cascade Point facility. The move does not otherwise substantially change the transportation effects studied in the 2004 SEIS.

The Kensington project is very important to the economy and future of Southeast Alaska and I am confident that the SIR process provides the environmental analysis to allow Coeur to proceed with this plan and the opportunity for open comment on this SIR enables involvement by public as required by the Conservation Groups.

Governor - We just received a phone call from Darwin in Senator Green's office. Senator Green is in Texas and would like to talk to you about special session. She is changing planes and has on hour available from 3:00 - 4:00 p.m. (AK Time) to talk with you. Unfortunately her cell phone is not working in Texas and so we would need to have her call into a number to reach you if you are available during that time period. Thanks, Janice

FOR IMMEDIATE RELEASE
08-066

No.

Kodiak Superintendent Named Education Commissioner

April 24, 2008, Anchorage, Alaska – Governor Sarah Palin today approved the State Board of Education and Early Development's appointment of Larry LeDoux to serve as Commissioner. Former Deputy Commissioner Barbara Thompson has served as Interim Commissioner since August 18, 2007.

"The Board of Education did an excellent job in their deliberations and consideration of many fine candidates, and I sincerely appreciate their efforts and this outcome," Governor Palin said. "I appreciate Larry's dedication to our education system and know with his expertise and leadership we will build and improve Alaska schools, ensuring our students are receiving the best education possible. Barbara Thompson has done an amazing job as our acting commissioner, and my hat is off to her for caring so much about Alaska's schools and all our students."

LeDoux is superintendent of the Kodiak Island Borough School District, where he has held numerous administrative posts. He has served as principal of North Star Elementary School and of Kodiak High School, and taught at the latter school. LeDoux holds a master of arts in teaching in science and biology from the University of Alaska Fairbanks.

"Strengthening families and communities begins with the quality of education we provide," Larry LeDoux said. "The investment poured into each child will be redeemed in the quality of our future Alaskans."

The Commissioner serves as chief executive officer of the Department of Education & Early Development, ex-officio secretary to the State Board of Education and Early Development, and a member of the Governor's Cabinet.

By statute, Education Commissioners must have at least a master's degree with at least five years of experience in education since receiving the degree, with at least three of the five years in an exclusively administrative position. Commissioners are approved by the Governor. They are appointed without regard to political affiliation. They serve at the pleasure of the State Board for no fixed term.

The Department of Education & Early Development oversees K-12 public schools and operates Mt. Edgecumbe High School in Sitka. The department also includes the Division of Libraries, Museums and Archives; the Professional Teaching Practices Commission; and the Alaska State Council on the Arts.

One more thing...I was told that your personal event will be re-scheduled (from the original 11 AM timeslot) to later in the day, after the Bike Blessing, rather than for 10 AM.

From: Clifton, Kelly L (GOV)

Sent: Fri 4/25/08 8:42 PM

To: PARNELL, S (GOV sponsored)

Subject: RE: Possible Schedule Request: EVENT TOMORROW

I relayed the message that if the Governor's not able to make it to tomorrow's 11 AM Bike Blessing, you'll plan to attend on her behalf, if you make it back into town. I know that if you do make it out tonight, it'll likely be very late, with an etd of 10:20 PM. If I get final confirmation that the Governor definitely won't attend, I'll let you know ASAP. There's about an 85 percent chance that that's how it'll work out. I asked Kate to get the Governor's remarks (very brief--include part of the proclamation) to you ASAP tonight, so you can take a quick look, even if you don't end up needing to go; she'll do that as soon as she has her computer up and running. They're still working on getting the proclamation signed.

Just got news that the Bike Blessing is still scheduled to happen, just won't have all the bikes. It'll be an indoor kick-off to the bike season. Senator Murkowski is scheduled to be there, too. Your 11 AM personal event is moveable, I was just told, to the 10-10:30 timeslot, which would give you time to get to the Bike event, if you decide to do that.

Hi Kelly,

The Governor is scheduled to present a proclamation at Anchorage City Church's Bike Blessing tomorrow morning at 11 a.m. She's planning on attending, but there is a chance – between the road conditions and Trig's travel plansJ - that she might not be able to attend. Would the LG be able to stand by in case she can't make it? I have the proclamation and he could have her remarks if he wanted them. Thoughts and availability?

Governor - the back up was due today but they have had to extend. Latest we heard is that we will not get the back up until the bill is transmitted. I do not know when that will happen but expect it within the next week to ten days. I believe the legislature will want you to have to act while they are in special session.

Governor, I absolutely trust your thoughts on this issue and we will stand with you. it sure looks to me that they want to hold the Administration and with enough delay AGIA hostage with the budget/veto decisions. We keep hoping for responsible actions from some of those in the leadership for the benefit of Alaskans but they continue to work for their own selfish gains. The whole budget process with the legis remains an uncoordinated mess. As always thanks for standing up for what is right! Tom

Subject: Fairbanks energy costs

Remembered another comment from today as I heard a lot of ideas from residents about how to provide relief for high energy costs (I am not particularly endorsing any of these...just passing along citizen comments.)

Here's what I heard:

1. Why can't the state do something with the Healy clean coal plant to provide cheaper power (Steve and Tom know those issues better than I)

2. Why can't the state suspend the oil tax for a time on in-state producer refined gasoline in exchange for producer agreeing to drop price of gasoline.

3. Raise local property tax exemption to 100000 instead of just 20K.

4. State should fund Susitna Hydro

While these were observations from others, one point was driven home for me... Privileged or

Subject: a poem

Mother nature played a trick
Look outside and you'll feel sick

The snow has been coming down all day
Who'd believe it's almost May

Another fourteen inches more
Flakes coming down by the score

Every time I look outside
I want to run, I want to hide

Disbelief makes me look again
If you could read my mind, you'd know I'd sinned

I wondered how it was affecting my sis
Then I looked in the email and knew she was miffed

We both took some pics to have some proof
This is an April snowstorm, it is no spoof

So don't look for us until late May
We're not coming out no matter what they say

I will take a blanket and a book
Go and find a cozy nook

But please don't talk to me just now
I might explode and have a cow

I will be thinking of you, Lorri
Knowing that you feel like me

Thanks ivy. I want to make sure talis and others know I'm blessing your efforts here. Otherwise Mike will try to put a stop to these good efforts I'm afraid. So cc me in when you email the guys or I'll cc you in when I'm talking to them about the efforts they need to hustle on to get this done. Thanks

Subject: Gas Tax Holiday

A <<Georgia Exec Order suspend gas tax.pdf>> G/Commissioner:

Upon further review, Georgia suspended the state's gas tax in 8 days. Governor Perdue issued an executive order on September 2, 2005 and the Legislature ratified the order on September 10.

I've attached two Georgia executive orders for your review. One suspends the state's gas tax for 1 month and the other lowers the state sales tax on natural gas for home heating for 4 months.

Privileged or Personal Material Redacted

Just a few thoughts for your consideration.

Have a good weekend,

Ivy

To: PARNELL, S (GOV sponsored)

Subject: RE: Possible Schedule Request: EVENT TOMORROW

I relayed the message that if the Governor's not able to make it to tomorrow's 11 AM Bike Blessing, you'll plan to attend on her behalf, if you make it back into town. I know that if you do make it out tonight, it'll likely be very late, with an etd of 10:20 PM. If I get final confirmation that the Governor definitely won't attend, I'll let you know ASAP. There's about an 85 percent chance that that's how it'll work out. I asked Kate to get the Governor's remarks (very brief--include part of the proclamation) to you ASAP tonight, so you can take a quick look, even if you don't end up needing to go; she'll do that as soon as she has her computer up and running. They're still working on getting the proclamation signed.

Just got news that the Bike Blessing is still scheduled to happen, just won't have all the bikes. It'll be an indoor kick-off to the bike season. Senator Murkowski is scheduled to be there, too. Your 11 AM personal event is moveable, I was just told, to the 10-10:30 timeslot, which would give you time to get to the Bike event, if you decide to do that.

I haven't heard anything about the state kicking in $25million for Juneau- that would make no sense when Juneau is just tasting a bit of what rural, and Fairbanks, and other areas have been going through. Do you mind if I forward your email to the energy guys? I can't articulate how important I feel this issue is to be addressed... tax relief and doing something with our royalties to provide the resource owners (the people!) relief is top, top priority for me. Thanks- let me know if I may forward.

All,

I just got off the phone with Kelly and the LG is happy to cover the event - if he can get out of FBX in time. He's stranded there right now.

Should I call the event contact and cancel for the Govan with the LG as a hopeful backup?

AG/Commissioner:

Upon further review, Georgia suspended the state's gas tax in 8 days. Governor Perdue issued an executive order on September 2, 2005 and the Legislature ratified the order on September 10.

I've attached two Georgia executive orders for your review. One suspends the state's gas tax for 1 month and the other lowers the state sales tax on natural gas for home heating for 4 months.

Subject: Comments on U.S. Forest Service SIR on Modified Plan of Operations for the Kensington Gold Project

Mr. Pete Griffin, District Ranger
Alaska Region – Tongass National Forest
Juneau Ranger District
8510 Mendenhall Loop Road
Juneau, AK 99801

Dear Mr. Griffin:

I am writing in support of the new SIR prepared for the paste tailings change at Kensington which meets all NEPA requirements. No new SEIS or EA should be necessary, given the analysis provided in the SIR and three previous EIS's, supported by over 1000 studies and $35 million in environmental baseline engineering and design studies.

The PTF will use the existing National Pollutant Discharge Elimination System (NPDES) outfall previously permitted after a NEPA analysis. The PTF will also use the existing water treatment facility which has been shown to be effective in meeting state and federal water quality standards.

The Sierra Club, Southeast Alaska Conservation Council and Lynn Canal Conservation supported taking the paste option forward as a better environmental alternative than the DTF. Paste tailings require less space and allow for enhanced water recovery, reducing water consumption. In addition, all contact water will be recycled or treated and will meet EPA's zero discharge requirement. The PTF berm will only be 85 ft. high, as compared to the dry stack at 220 ft. high. The closure/reclamation strategy is simple and straight-forward, and there are no long-term water treatment requirements for the encapsulated tailings.

I support the proposed move to Yankee Cove for transportation of workers, a fully permitted privately-owned facility, which eliminates the opposition of the Conservation Groups (SEACC, Sierra Club and Lynn Canal Conservation) to the Cascade Point facility. The move does not otherwise substantially change the transportation effects studied in the 2004 SEIS.

The Kensington project is very important to the economy and future of Southeast Alaska and I am confident that the SIR process provides the environmental analysis to allow Coeur to proceed with this plan and the opportunity for open comment on this SIR enables involvement by public as required by the Conservation Groups.

----- Original Message -----
From: John Sandor
To: Forrest Cole ; pgriffin@fs.fed.us
Cc: John Sandor
Sent: Friday, April 25, 2008 2:59 PM
Subject: Kensington Supplemental Information Report

Mr. Pete Griffin, District Ranger
Alaska Region - Tongass National Forest

This morning' radio news reports a Southeast Alaska Conservation Council (SEACC) representative saying that the Environmental Protection Agency (EPA) would be requiring an Environmental Analysis on the alternative proposal to the previously approved Lower Slate Lake alternative.

I am disappointed SEACC representatives appear to be trying to work with EPA staff to collaborate in efforts to influence the requirement for another Environmental Analysis.

I want to reiterate my strong support for the previous Lower Slate Lake alternative.

However, I also support your Kensington Supplemental Information Report and believe the SIR represents a comprehensive analysis of all environmental effects; and than another Environmental Analysis or Supplemental Environmental Analysis is not warranted.

The additional time for another Environmental Analysis of Eupplemental EIS would likely lead to another prolonged delay that would not only be detrimental for the Kensington Mine Project, but be harmful to the communities which will benefit from the reopening of the Kensington Mine.

In short, the project should be permitted without further extended delays. EPA and the Corps of Engineers should not unnecessarily extend the process further. Their respective permits can be writtend directly from the many documents and studies that have been made over the past fifteen plus years.

Thank you.

John Sandor, 3311 Foster Avenue, Juneau, Alaska 99801.

MESSAGE:

Dear Governor Palin

Congratulations on the birth of your new son. I have a son to he is 34 now and a good kid to.

I would like to say say to you that I do not think enough has been done for the rail road here I see that lots of money is bneing spent on capital budget items all over the state and thats okay by me.

I would like to see the rail road built to white horse Canada at least .I think the rail road in Canada stops there in White Horse.

The rail road would lower the freight rates and the tourists could put there motor homes on it and come up to see Alaska

probably alot cheaper then buying gas along the way through Canada.

Anyway I think it would be a good investment in Alaska,s futer to have a rail connection with the lower 48.

Best Regards

Terry L. Walters Sr

MESSAGE:

Congratulations and God's greatest blessings to you and your family on the birth of your new baby boy! I'm quite impressed (in this day and age) in your pre-knowledge and decision to have Trig. Apparently you feel as I, no other decision is a consideration!

"Rumor" has it that you could be the VP choice for McCain --- and if that has merit, let it be known you have our vote!! (How smart that would be of McCain to choose YOU --- and what a plus for his campaign!)I do hope it's true!

I am the proud mother of two beloved sons, the oldest of which has a charming personality, an engaging smile, a terrific sense of humor, three jobs (including public speaking), ... and Down syndrome. Our own experience has been positive and we wouldn't trade him for anything! As Michael says in one of his speeches, "God Don't Make Junk!"

Michael will soon be 30 years old, and it's been a wonderful and blessed 30 years!

The National Down Syndrome Congress conference is in Boston this year (July) and Michael and I will be presenting a workshop there. I know Alaska is a distance, and of course you have a very demanding job, but it would be good for you and your family to try to attend, and/or join a support group locally to get lots of information/education. There is so much to learn.

Nevertheless, never allow Trig to be segregated in his education; he should be WITH nondisabled peers always! Having older siblings will be a tremendous benefit for him and will naturally afford a wealth of learning and social interaction. Incidentally, just because Trig has DS doesn't mean he will definitely need a lot of interventions (PT, OT, etc.). My son only had speech therapy regularly as he has good physical strenth and tone. Most beneficial "early intervention" will be the attention he gets from his family.

This is the account/testimony (written 9 years ago)I think you'll enjoy. If you're ever in the eastern part of the country, I would consider it an honor for you to come visit us in upstate New York! (It might be a pleasant change for you to stay in our rural home and area.) You would LOVE to meet Michael! He has done keynotes in several places, including Guatemala. People/parents love him! He's an amazing guy! I do hope to hear back from you, though I can appreciate your demanding schedule. God bless you all!

The year was 1978. My husband, Santino, and I had been married a year and a half and were expecting our first child. The pregnancy was going well and life was good. I remember telling my aunt how fortunate we were as a family and how amazing it was that even though our family was so large, we had been spared from heartache and tragedy. We had no untimely deaths or disasters; we were so blessed.

Sunday, April 16th was my due date and Sandy and I went to church as usual. Though I was certainly big enough to deliver a house, there was, as yet, no labor activity. I was anxiously excited and feeling fine. The message preached that day by our pastor, Tom Bowden, will remain in my heart and mind forever. It was a sermon on the grace of God oftentimes being more significant and glorious than healing. He referenced Paul's thorn in the flesh (eyesight) and how Paul had learned the power of God's grace.

"Concerning this thing I pleaded with the Lord three times that it might depart from me. And He said to me, "My grace is sufficient for you, for My strength is made perfect in weakness." Therefore most gladly I will rather boast in my infirmities, that the power of Christ may rest upon me. Therefore I take pleasure in infirmities, in reproaches, in needs, in persecutions, in distresses, for Christ's sake. For when I am weak, then I am strong."

2 Cor. 12:8-10

I remember holding and storing this truth in my heart, as if I might need it at a later time. I had not imagined how soon that day would come. Eleven days later, after a long and difficult delivery, our son, Michael, was born. He was a strapping boy: 9 pounds 7 ounces! We were so thrilled; I had so wanted my first child to be a son so our future children would have a big brother. My parents were especially ecstatic because this was their first grandchild (named after my father and brothers), and they had longed to be grandparents. It was well after midnight when we all finally got to sleep exhausted.

Early the next morning (about 6 AM) the pediatrician came to my room. She had first called Sandy to inform him that she suspected our baby might have Down syndrome, and she wanted him to tell me. Sandy knew the implication, thanked her for calling, and after whispering. "Lord, I leave it in Your hands," returned to bed. The doctor no doubt felt he was "unable to handle the information" and decided to tell me herself. I was not familiar with the term and the doctor told me if Mike did have it, he would be "slow." I was not shaken and remained confident, knowing that the Lord could do anything. Having a child that was "slower" than I might have expected was certainly not a tragedy to me.

A nurse came into my room right after the doctor left with my beautiful, big baby in her arms, and I innocently asked her what she knew about Down syndrome. That's when the roof caved in. She told me, "He'll never be an engineer; you can institutionalize him." (Later, when told of this, my brother Mickey retorted, "Well, we know he can be a nurse!) I sat up, shocked and horrified as she proceeded to paint the most horrible picture of a vegetable that was to have been our son. Without taking a breath she blurted, "He'll never walk, talk or know you. He will always be sick. He will need constant care," and on and on. I tried to hide my terror and fear. "Lord, I take it back: this is not what I meant when I thought, 'Together we can handle this' " The nurse left and returned with a book she said I should read. I later learned it was "standard issue" and was burned into the memories and minds of many new parents. It consisted of accounts and pictures of institutionalized people with Down

syndrome; their demeanors (and lives) were pathetic. Now I cried. Holding what seemed to be an otherwise beautiful, healthy baby, I prayed for God to help me. I asked for wisdom; I asked for grace.

One thing broke my heart: I wept, begging God to let this child have enough mental (and spiritual) "ability" to know Him. That's all I wanted: that my child could and would know and love Jesus. At that moment I felt the presence of the Lord so intensely. I knew He heard my prayer and He was pleased with the request. I felt like Solomon—I believe I had touched the Lord in faith and could have asked anything. I asked the thing that pleased God. It never occurred to me (or my husband) to ask God to remove or heal the syndrome; we knew the Lord had brought this baby into our lives. This was not an accident; he was not a mistake. (I knew God had a plan and I wanted "in" on it.)

It was then the Lord brought to mind Bro. Tom's sermon. Yes, that was the key. Understanding flooded my heart: God's grace in Michael's life would bring the Lord more glory than healing him of Down syndrome could. Michael's life would glorify Jesus. The years and events that followed have borne out that truth. The doctors said he would not live past age two with the severity of his congenital heart defect. Our God does miracles; nothing is too great for Him! We just need to seek and know His will and pray according to it. We prayed for this healing and his heart was miraculously healed, to the amazement of the doctors.

Throughout the years the Lord has faithfully touched and healed our son of so many (sometimes lifethreatening) illnesses. Jesus even healed and opened his ear canals (1992) right before he was to have a very painful and extensive reconstructive surgery. The doctor was astounded and had no medical explanation, but we all knew it was a miracle by Jesus: especially Michael. We have no fear or anxiety over his future; he's in the Lord's hands. Mike has a tremendous faith in God along with an incredible understanding of spiritual things. In the spirit he has no disability; in fact, he's gifted and talented. I don't know exactly when Michael was filled with the baptism of the Holy Ghost, evidenced by speaking in tongues; he seemed to have it ever since he was able to speak. He's always loved to be in the presence of God and going to church to worship the Lord is his favorite thing to do. When he was thirteen he chose to be waterbaptized in Jesus' Name for the remission of sins (Acts 2:38) -

it had meaning for him. The Lord is so faithful.

"But God has chosen the foolish things of the world to confound the wise; and God has chosen the weak things of the world to confound the things which are mighty …"

1 Cor. 1:27

Because of Michael's faith and fervor for the Lord, he can (and does) say profound things to many people about the Lord. He "preaches" the gospel with his life, and can do it without offending. He has spoken truths to our extended family and prayed for them with power and anointing and the Lord has answered his prayers. He is able to just speak the truth lovingly (without premeditation or motive) - things I would hardly dare to say.

Michael is now twenty-one years old and he has been such a blessing to us and those who know him. He is a true "big brother" to our fourteen-year-old Daniel, who looks up to Mike in many ways. Dan loves and respects his brother for his many accomplishments and his loving heart. Mike cares about people and comforts those who are hurting. He has childlike faith and loves God with all his heart, soul, mind and strength. Through him we, like Paul, have all learned that God's grace is truly sufficient for us; His strength is made perfect in weakness. That scripture (2 Cor. 12:9-10) has become Mike's own personal testimony; he shares it with many people and also read it at his high school graduation banquet. I know in the end Jesus will say to Mike, "Well done, good and faithful servant; you were faithful over a few things. I will make you ruler over many things. Enter into the joy of your Lord" (Matthew 25:21). We are so thankful for his life; we are so grateful to the Lord!

We pray this testimony has blessed you and perhaps even given you a renewed thankfulness for the gifts the Lord has given you. "To whom much is given, much is required" (Luke 12:48) -- we hope you will not waste them.

with love, Barbara, Sandy & Michael Cardella (1999)

Dear Sarah,

My name is Sandy Gross and I live in NC. I read about your family's new addition and I am delighted to hear what you have said about your new son. My husband, Bob, and I have dear friends that have a son with down's syndrome and Nathan is about the sweetest child around. He is loving and always with a smile on his little face.

God Bless you and your husband for choosing life and the wonderful way God works in our lives with everyone as precious.

Your state is very blessed to have you as Governor.

In Him,

Sandy

Subject: Cell Phones for Soldiers

Dear State Employee:

Governor Sarah Palin has asked us to assist the Cell Phones for Soldiers program.

Cell Phones for Soldiers is a nonprofit organization dedicated to recycling used cell phones in exchange for phone cards for our soldiers overseas. Each phone donated to Cell Phones for Soldiers is exchanged for a calling card, good for one hour of talk time.

Cell Phones for Soldiers was founded by teenagers Robbie and Brittany Bergquist from Norwell, Mass., with $21 of their own money. Since then, the non-profit organization has raised almost $1 million in donations and distributed more than 400,000 prepaid calling cards to soldiers serving overseas. For more information about the Cell Phones for Soldiers program, you can visit their website at http://www.cellphonesforsoldiers.com/about.html

The State Surplus Property warehouses in Anchorage and Juneau will continue to be the collection point for disposal of surplus cell phones. If you have a cell phone to dispose, please contact your Department Property Officer. Please remember that sensitive

information (including phone numbers, email addresses, etc.) must be removed from all electronic devices, including cell phones, prior to disposal.

All cell phones which become unserviceable or are excess to your agency will be donated to the Cell Phones for Soldiers program. State Surplus will ensure proper packaging and shipment to the program. Division of General Services Property Manager Jim Jobkar at 907-257-9632 is available to answer any questions you may have regarding this program.

Thank you for considering the Cell Phones for Soldiers program.

Subject: Monday morning event question

Governor,

You are confirmed to attend the Alaska Native Justice Center's "Building Momentum" conference in Anchorage on Monday morning. The event begins at 8:30 a.m. and, as it stands now, you are scheduled to speak last, at about 9:10 (approximate time). If you arrive at 8:25 a.m., you will be seated onstage at a head table with the other speakers (the attendees will be finishing breakfast); if you choose to come later, you could arrive at 9:05 a.m., sit at the back of the room until you are introduced, take the stage to deliver remarks, and then leave the event. Please let me know if you prefer to arrive at 8:25 or 9:05 a.m. Also, if you'd like to speak first, that is also an option.

Please respond at your earliest convenience. Kris will be dropping off information related to tomorrow's Bike Blessing as well as Monday's conference with you tonight. Thanks so much!

Kate Morgan

Subject: FW: Iditarod Trail Committtee (Willow Airport Use)
Importance: High

Governor,
We met with the ITC Board of Directors today regarding the use of the Willow Airport for parking for the start of the Iditarod Race. I reiterated the Department's position that we need to work toward (in the next 5 years) relocating the start of the Iditarod race off Airport Property. I told them it is about safety and preventing conflicts between with aircraft and other non-aviation use vehicles and people. They seemed to be receptive and willing to work with us on that goal.

The first step would be to move parking off the airport runway safety area by next year's race. This will require some clearing and gravel to create alternate parking. We will use the $100,000 in the capital budget on the project. Step 2 would be a planning study to help relocate the start of the race. I told them DOT would help with the study and getting this under contract. Again we said five (5) years, so we have time. The FAA was at the meeting and was an active part of the presentation.

Thanks

LEO

Web mail from: Mr. Gary Knopp

address: 50465 Patrick Dr. Kenai AK 99611

252-4457

MESSAGE:

The Honorable Governor Sarah Palin

I would like to introduce myself. I am Gary Knopp and I sit on the Kenai Peninsula Borough Assembly representing District 1 (Kalifornsky Beach, Kenai & Ridgeway areas).

First, I would like to congratulate you on the birth of Trig. My wife and I are sure he will bring you and your family boundless joys and blessings.

I am writing with regards to SB 221 (Capital Budget), in particular a project in Section 10 Dept of Transportation and Public Facilities project title Kalifornsky Beach Road Pedestrian Pathway. As you may or may not be aware the Alaska Dept of Transportation (ADOT) is currently rehabilitating approximately 12 miles of this road. This project is 100% State funded and has been on the Kenai Peninsula Borough's wish list for sometime now. There is a portion of this road that is in desperate need of a separated pedestrian walkway that would connect to an existing walkway at the intersection of Kalifornsky Beach Road and Bridge Access Road. This section of the road is surrounded by a multitude of subdivisions and services literally hundreds of homes and families. Many families have school age children who currently ride their bikes to school in the middle of the existing highway. It is at the request of these families that I pursued a separated walkway along the most populous area of th

is road to connect to the existing walkway. The Kenai Peninsula Borough has passed a resolution in support of this walkway as did the City of Kenai. The ADOT did not include this separated walkway in the design/bid process and therefore does not have the funds appropriated for this project. We have had a lot of support from our delegation in Juneau and now its fate is tied to SB 221. There is no better time than now to construct this walkway in conjunction with the road rehabilitation project;all the manpower and equipment are already on site. I have spoken with the project engineer and he has indicated there

is substantial usable material on site that can be used for this walkway. It is our fear that if we don't get it constructed now along with the existing road rehabilitation project, that the walkway will never happen and we would be passing up an outstanding opportunity.

I applaud all the hard and outstanding work that you have done thus far and I know you will continue to do so, especially in dissecting the capital budget. I am hopeful that as you go through this year's budget, and have all the facts surrounding the Kalifornsky Beach Road Pedestrian Pathway that you will deem it a worthwhile project to be funded in the budget process.

If I can answer any quesions or be of any assistance, please do not hesitate to call me at 283-9494 or my cell at 252-4457.

Thank you.

Sincerely

Gary Knopp

Thank you. Wonder why the rumor's still out there, then? Arctic P needs to clarify on its own via op-ed or letter(s) to editor(s) instead of waiting for any retraction. And in the meantime we need to clarify when we hear the incorrect info repeated out there- like today's letter to ed in ADN from the Soldotna constituent. (I've asked that the Kenai office contact the letter writer and correct his misunderstanding, for instance.) Pls let me know when Arctic P submits its op-ed or letter(s) of clarification to publicly put this to rest. Thanks!

Governor-

Arctic Power has contacted the Anchorage Daily News. I will follow up with the Daily News. If they don't print a clarification/retraction, I would suggest to Arctic Power to write a letter to the editor.

Sharon

Hi John,

I just wanted to forward a copy of our retraction to the ADN to you on the Liddy articles. The same letter copied below has been sent to the Fairbanks News Miner and the Associated Press Anchorage Bureau which ran variants of Sean Cockerham's original story. The ADN reporters Frank Gerjevic and Sean Cockerham have both been contacted by phone on this and made aware of our grievances. Mr. Liddy and the RadioAmerica management have also been conferenced called today with the Arctic Power Executive Committee Members Eric Helzer and Matt Fagnani and Co-Chair Mike Navarre about our contacts with the ADN reporter and the letters of retraction. They have said to us that they are pleased with our attempts to right this wrong and are 100% go for the tour in July. They stated that they will be personally fighting to clear Mr. Liddy's name in the Anchorage media, possibly with an appearance tomorrow morning on the Rick Rydell show on KENI Radio. Please feel free to pass this on to the Governor's Press Secretary as I know they were concerned on the issue.

ARCTIC POWER letter to the ADN reporter Frank Gerjevic and CC'd to Sean Cockerham

Dear Frank,

The Arctic Power Executive Committee met today to address the state of affairs caused by the April 19 Anchorage Daily News headline, "Group hires Liddy to promote Alaska petroleum drilling," and the misquoted statement that Liddy "was hired to broadcast from Alaska" attributed to Adrian Herrera. This information is untrue and has caused a serious misunderstanding. The Executive Committee unanimously called for the Daily News to issue an immediate, prominent retraction.

Mr. Liddy volunteered to come to Alaska because he is concerned about national energy production and wanted to learn more about Alaska's energy and natural resource potential, not just the issue of ANWR's future. Arctic Power neither hired him nor will it pay him. He will

control all content of his show as an independent entity and will interview whom he wishes and present them on his show as he wishes. Arctic Power is delighted Alaskans will be able to share their views on this popular national talk radio show. The organization has invited members and supporters to help fund the costs of getting the production team around the state. For clarification, no state funds were ever intended to be used for Mr. Liddy's Alaska resource tour. When the tour itinerary is arranged, we will let you know the details.
Thanks for your help, Frank, in clearing up the misconceptions created by this article.

What's the plan for clarifying the "state is paying him..." rumor that was the subject of the editorial and the letters to the editor recently? I don't know who's idea it was to (supposedly) pay Liddy to lobby for ANWR, but either Arctic Power needs to answer to the rumors, or there at least needs to be clearer messaging that we didn't ask for this, nor did we bless the idea of paying him or his expenses anyway as he plans to broadcast from AK. Thanks!

Subject: FW: Iditarod Trail Committtee (Willow Airport Use)

Importance: High

Governor,
We met with the ITC Board of Directors today regarding the use of the Willow Airport for parking for the start of the Iditarod Race. I reiterated the Department's position that we need to work toward (in the next 5 years) relocating the start of the Iditarod race off Airport Property. I told them it is about safety and preventing conflicts between with aircraft and other non-aviation use vehicles and people. They seemed to be receptive and willing to work with us on that goal.

The first step would be to move parking off the airport runway safety area by next year's race. This will require some clearing and gravel to create alternate parking. We will use the $100,000 in the capital budget on the project. Step 2 would be a planning study to help relocate the start of the race. I told them DOT would help with the study and getting this under contract. Again we said five (5) years, so we have time. The FAA was at the meeting and was an active part of the presentation.

Thanks

LEO

Subject: Cell Phones for Soldiers

Dear State Employee:

Governor Sarah Palin has asked us to assist the Cell Phones for Soldiers program.

Cell Phones for Soldiers is a nonprofit organization dedicated to recycling used cell phones in exchange for phone cards for our soldiers overseas. Each phone donated to Cell Phones for Soldiers is exchanged for a calling card, good for one hour of talk time.

Cell Phones for Soldiers was founded by teenagers Robbie and Brittany Bergquist from Norwell, Mass., with $21 of their own money. Since then, the non-profit organization has raised almost $1 million in donations and distributed more than 400,000 prepaid calling cards to soldiers serving overseas. For more information about the Cell Phones for Soldiers program, you can visit their website at http://www.cellphonesforsoldiers.com/about.html

The State Surplus Property warehouses in Anchorage and Juneau will continue to be the collection point for disposal of surplus cell phones. If you have a cell phone to dispose, please contact your Department Property Officer. Please remember that sensitive information (including phone numbers, email addresses, etc.) must be removed from all electronic devices, including cell phones, prior to disposal.

All cell phones which become unserviceable or are excess to your agency will be donated to the Cell Phones for Soldiers program. State Surplus will ensure proper packaging and shipment to the program. Division of General Services Property Manager Jim Jobkar at 907-257-9632 is available to answer any questions you may have regarding this program.

Thank you for considering the Cell Phones for Soldiers program.

Annette Kreitzer

Governor,

You are confirmed to attend the Alaska Native Justice Center's "Building Momentum" conference in Anchorage on Monday morning. The event begins at 8:30 a.m. and, as it stands now, you are scheduled to speak last, at about 9:10 (approximate time). If you arrive at 8:25 a.m., you will be seated onstage at a head table with the other speakers (the attendees will be finishing breakfast); if you choose to come later, you could arrive at 9:05 a.m., sit at the back of the room until you are introduced, take the stage to deliver remarks, and then leave the event. Please let me know if you prefer to arrive at 8:25 or 9:05 a.m. Also, if you'd like to speak first, that is also an option.

Please respond at your earliest convenience. Kris will be dropping off information related to tomorrow's Bike Blessing as well as Monday's conference with you tonight. Thanks so much!

Subject: KABATA

Governor,

I spoke with George Wuerch last night and he informed me that he will be resigning from the KABATA Board. He would like his effective date to be soon but left that up to us. I discussed the option of him sending his letter Monday and his resignation effective the end of the month (Wednesday). I am not sure that the timing matters all that much but the end of the month option makes sense. If that is OK with you, I will call him back to confirm.

George feels like his has put his time in on this one. He said he and Barbara are going to travel for a few months and would be unavailable. Confidentially, he shares some of our concerns about the RFP but he is not going to put out a statement and said he will try to avoid any media attention about his departure.

Mike
